Silca Ply2

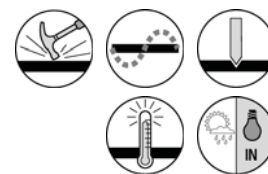

All sizes and reproduction of the colour finishes in this catalogue are indicative
The colours shown correspond approximately to the original colour of the material

Silca Ply2

Silca Ply2 is distinguished by its surface coating, which is matte and only slightly reflective. The special micro-thin coating makes it possible to engrave small letters without shading, as the engraving depth is just 0.06mm.

Silca Ply2 comes in 29 colours and 4 different thicknesses.
