

Easy Scan **Plus**

# Easy Scan Plus

POUM - DEPLIANT EASY SCAN PLUS - GB

Silca Easy Scan Plus is the essential tool needed to offer customers a complete and efficient residential remotes duplication service.

Easy to use and portable, it guides you through the entire duplication process; identifying the original remote, advising which Silca remote is needed and copying the new remote.

## EASY SCAN PLUS

Easy to use and portable, it guides you through the entire duplication process; identifying the original remote, advising which Silca remote is needed and copying the new remote.

With Silca's application of NFC technology in the Easy Scan Plus and Air4 Plus, together with the new advanced software, it's possible to perform a series of functions essential for offering an effective remote duplication service.

Easy Scan Plus is designed and produced in accordance with CE standards.

## AIR4 PLUS REMOTES

**Air4 Plus** duplicates the widest range of both **fixed** and **rolling code** remotes available on the market for the frequencies **433.92** and **868.35 MHz (AM/FM)**.

## TECHNICAL DATA

**Power supply:** AA batteries AA (2x1.2 V)

**Dimensions:**  
Width: 148 mm  
Depth: 90 mm  
Height: 25 mm

**Weight:** 172,50 grams (without batteries)

## Easy Scan Plus - Advantages

### Easily identify an original remote

The software programme contains an extensive database of original remotes that can be searched by make, model, frequency, type of remote (fixed or rolling) etc.

### Easy copying mode

The Easy Scan Plus software guides you through the **identification and copying** of an original remote.

### "Drag and drop" feature to order the push buttons

The push buttons can be set simply by **dragging** and **dropping** from the original remote to the new remote on the PC.

### Customer archive function

Speeds up the process of making further copies of remotes already made. Allows you to retrieve the data from an archive of previous jobs.

### Manage and personalize remote parameters

The following parameters can be modified: frequency, button code, button rolling code counter, remote rolling code counter, installer code.

### Copying and generating new DIP Switch remotes

Copy or generate new remotes through the internal **DIP Switch** even for lost or damaged remotes.

### Operating modes

Easy Scan Plus can operate in two ways:

- Stand Alone.
- Connected to a PC using the special software programme "Air4 Remote Programming Software" downloadable from [www.silca.biz](http://www.silca.biz).

### Air4 Remote Programming Software

To benefit from all the advanced features that the "Air4 Programming Software" offers, an activation code must be purchased (**optional**) (order code D747834ZB).

To activate the software follow the instructions supplied in the Software Activation pack.

"Software Activation Code" pack

### Updates

**Available for:**

- Easy Scan Plus Software.
- Air4 Plus remotes software.
- "Air4 Remote Programming Software".

**Advantages:**

- Stock is always current.
- Immediate availability of new original remote applications developed by Silca.
- Access to the latest Silca documentation and information enabling the very best remote duplication service to be offered to customers.
