

Silca Prima Laser / Idea Program

Prima Laser/Idea Program includes all the cutting cards, series and indirect codes for decoding and cutting bit, double bit, mortice and pump keys with the following Silca key-cutting machines: Prima Laser, Idea

Each cutting card can be customized by:

- Adjusting cutting axes and depths
- Associating a marking or engraving model
- Setting fixed cuts
- Key material, stem dimensions
- Type of symmetry (specular, front/back)
- User's Notes
