

Silca Quattrocode / Triax Program

Triax/Quattrocode Program includes all the cutting cards, series and indirect codes for decoding and cutting keys for security cylinders (dimple, mixed laser dimple, vehicle laser, tubular) with the following Silca key cutting machines:

Triax Pro, Triax e-code, Triax Quattro, Quattrocode, Quattrocode pneumatic, Quattrocode rotary (special rotating clamp) and Viper.

Each cutting card can be customized by:

- Adjusting cutting axes and depths
- Associating a marking or engraving model
- Setting fixed cuts
- Clamp, cutter
- User's Notes
