# Silca Point. New possibilities of customization

The best seller modules of Silca Point have been further updated to perfectly respond to any of your needs.

## New standard modules

### Power socket on the post of the storage and drawer units

By inserting the power socket directly on the post of the storage unit and the drawer unit, you will be able to use the work station of your Silca Point safely without the obstruction of unaesthetic wires.

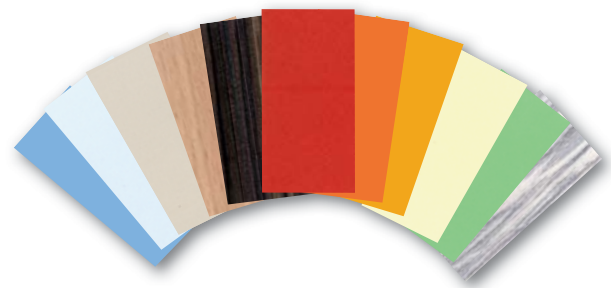

### Customized color

Silca Point combines design and aesthetic attractiveness. Its modules are, in fact, available in eleven standard finishes and in the customized colors that you prefer. You will be able, for example, to adapt your Silca Point to the colors of your logo.

### New modules added to the catalogue
