3\_2012 - SILCA KEY PROGRAMS V. 19.1.x.x

### IMPORTANT

Supported Operating Systems:

Windows® XP SP3, Windows Vista™ SP2 (32 or 64 bit), Windows® 7 (32 or 64 bit), **Windows® 8 (32 or 64 bit)**

### SILCA CODE PROGRAM

Data update with 29 new cutting cards.

- New items include:
  - o New range of STEM padlocks with relative cutting cards
  - o ABLOY DISKLOCK PRO and NOVEL systems with KIT G21 (D737531ZB)
  - o ABLOY PROTEC and PROTEC<sup>2</sup> systems with KIT G22 (D737536ZB)
  - o ASSA P600, ABUS XP10, ABUS P82
  - o TRIPLE A padlock model U-LOCK for bicycles
  - o TRELOCK padlock models MS610 and BS610

Updates UC299/399 and UC399 EVO software.

### SILCA CODE PROGRAM for UC199

From this update SILCA Code Program runs a new electronic key-cutting machine named UC199.

The UC199 can be used as a stand-alone machine for COPIES from ORIGINALS and with the aid of Code Program it can decode and cut coded keys.

The UC199 runs the whole range of flat keys included in SKP, with some exceptions:

- Keys requiring special adapters
- Keys requiring a non-standard clamp

### SILCA TRANSPONDER PROGRAM

The Silca Transponder Program has been updated with 134 new vehicle applications and 3 new Silca references.

### SILCA TRIAX - QUATTROCODE PROGRAM

Data update with 19 new series.

- New items include:
  - o MAGNUM Superior +,
  - o GERDA Evo, VKM3 and VKM4
  - o SECUREMME K3 and K5
  - o WILKA PR300-P3 (SKG)
  - o SUBARU model BRZ
  - o Motor cycle KTM (Duke 125)
  - o KYR (3 + 4P)

Updates TRIAX-e.code, TRIAX 2 and TRIAX QUATTRO software.

2\_2012 - SILCA KEY PROGRAMS V. 18.7.x.x

### IMPORTANT

Due to the need to upgrade Silca Key Programs, from the SKP 2/2012 Update Windows 2000 Operating System will no longer be supported.

On request, Silca will provide the relative DVD free to web subscribers who have to install the update on a new PC.

Supported Operating Systems: Windows® XP SP2, Windows Vista™ SP2 (32 or 64 bit) Windows® 7 (32 or 64 bit)

### SILCA VIPER PROGRAM

#### New SILCA solution for cutting flat vehicle keys with VIPER

With the new KIT **D740050ZB**:

- Special "D" clamp with 3 inserts
- H158 cutter
- U113 tracer point
- U113DC decoder
- Z3 calibration template
- Silca WinTransfer Program

you will be able to code cut over 1300 SILCA references for flat vehicle keys precisely and quickly.

Two new optional functions to use when copying keys:

- TAPER CORRECTION for adjusting small key-positioning errors
- KEY BLANK DETECTION for automatically offsetting depths for key blanks with different dimensions from the originals.

**Update software for VIPER with this update available for subscribers to TRIAX/Quattrocode**

### SILCA TRANSPONDER PROGRAM

#### Identification TEXAS/CRYPTO Keys with Mutual Authentication (ID=6E)

From the software version (3.03.061) RW devices can recognise keys with Mutual Authentication Texas Crypto transponders (6E) that cannot be cut.

The Texas Crypto 6E is used on the most recent vehicle models by:

- FORD (with Texas 80 bit transponder)
- TOYOTA (with "G system" transponder)
- KIA, HYUNDAI, SUBARU (mostly with Texas 80 bit transponder)

**The Silca Transponder Program has been updated with 66 new vehicle applications and 1 new Silca reference.**

Update software for: RW4, RW4 PLUS, FASTCOPY, FASTCOPY PLUS devices.

### SILCA IDEA - PRIMA LASER PROGRAM

**Data update with 1 new serie.**

- New items include: SECUREMME (SECURMAP)

Update software for: IDEA.

### SILCA TRIAX - QUATTROCODE PROGRAM

**Data update with 11 new series.**

- New items include: Yale 1000/2000 series, S-tech, BMW BW9EHP, Bumil, Ifam F11SX, MCM, Bricard Serial XP, Toyota Lexus

Update New items for: TRIAX-e.code, TRIAX 2 and TRIAX QUATTRO.

### SILCA CODE PROGRAM

**Data update with 17 new cards.**

- New items include: car keys for SUBARU Trezia 2011, XV 2012, BRZ 2012, Tesa TK5, Ces Profil MKM, RUKO P600;

Update software for UC299/399 and UC399 EVO

### SILCA KEY READER PROGRAM & OPTIKA

**Update with 17 new references.**

Remember to use a USB PEN to update the OPTIKA program. To download the USB-PEN use the "Advanced" function in the OPTIKA "Archives => Machines" of the Key Reader Program (or SKP).

1\_2012 - SILCA KEY PROGRAMS V. 18.4.x.x

### SILCA TRANSPONDER PROGRAM

The new MH electronic key now available on the market has approximately 876 applications in the automotive field, with 86 new references.

Silca Transponder Program is updated with all the new SILCA MH references and all the vehicle models involved.

The main characteristics of the MH key are:

- Complete single solution.
- Reprogrammable key with electronic key functions like EHP and EH2.
- Operates without a battery.
- Interchangeable key head content.
- Key compatible with all devices in the family: RW4, RW4 Plus, Fast Copy, Fast Copy Plus.

To use a MH key with the following devices:

- RW4 + P-Box
- Fast Copy + P-Box
- RW4 PLUS
- Fast Copy PLUS

you need to **update the on-board software of all the devices listed above** (including P-Box). The "RW" software updates can also be downloaded from the internet through Silca Remote Service.

### SILCA KEY PROGRAMS

New functions have been added to facilitate consulting the key database:

- **Running favourites:** a new list accessible from the main menu is used to get directly to the required cutting card. Just enter the most commonly used SSNs in the FAVOURITES list, which is accessible from the SEARCH window.
- **View "USER NOTES":** "User Notes" on a cutting card can be viewed from the SEARCH window without opening the card.
- **Comparison of characteristic data on cutting cards for flat keys (UNOCODE):** only for flat keys can the characteristics data of one or more cutting cards be compared without opening the cutting.

### MARKER 2000 PROGRAM

Silca has updated its MARKER 2000 Program (PC version) so that it can be used in the 64 bit operating systems: Windows VISTA™ Windows® 7

Apply to your dealer for the MARKER 2000 Program update.

### SILCA TRIAX-QUATTROCODE PROGRAM

Data update with 8 new series.

- new items include: CVL 9682, AGB U-Tech, DOM IX6SR E (Prof. 230), ABUS D6 series DN

Software update on: TRIAX E-code, TRIAX 2 and TRIAX Quattro.

### SILCA CODE PROGRAM

Data update with 12 new cutting cards.

- new items include: EVVA EPS, DOM System RN, ABUS E60 SKG

Software update on UC299/399 and UC399 EVO

### SILCA KEY READER PROGRAM & OPTIKA

Update with 25 new references.

Remember to use a USB PEN to update the OPTIKA program. To download the USB-PEN use the "Advanced" function in the OPTIKA "Archives =>Machines" of the Key Reader Program (or SKP).
