

Silca Remote Service

Silca Remote Service is a utility used for updating programs on board key-cutting machines and transponder devices.

Silca Remote Service is distributed through Silca Key Program and individually by CD-ROM (e.g. provided with a machine).

Silca Remote service can also be used to download software updates from the internet for all transponder devices and some special machines:

- RW4, FASTCOPY, RW4 PLUS, FASTCOPY PLUS, P-BOX, COM-CODE
- OPTIKA LIGHT
- FUTURA (ALL VERSION)
- Easy Scan
