## February 2020

**Advanced Diagnostics is pleased to announce the release of the ADS2295 key programming software for Fiat®, Alfa Romeo® and Jeep®.**

## What does the software do?

The ADS2295 software programs proximity keys for the Alfa Romeo® Stelvio and Giulia and bladed keys for popular Fiat® and Jeep® models.

All keys and remotes will be erased before programming new ones, whilst new keys can be created even in the absence of an original key. The software bypasses the security pincode during the procedure and programs the remote and the transponder at the same time.

The Smart Aerial is require to complete the procedure, whilst no working key or additional software are required.

## What else will I need?
