

Key Programming Software Update compatible with Suzuki* ADS2233 - Code D752008AD

March 2021

Advanced Diagnostics is pleased to announce the release of an update to the ADS2233 software to program proximity keys for a wide range of Suzuki* vehicles worldwide.

What does the software do?

The ADS2233 software programs proximity keys with push button start for selected Suzuki* models. This software allows keys to be added or programmed from a lost key situation.

The software will bypass the pincode during the procedure, making it a seamless process when programming keys.

What else will I need?

Smart Pro

OFFER DETAILS

Cable	ADC2000
Software category	C
Other accessories required	No
