

## Key Programming Software 2022 Update for Renault\* ADS2287 - Code D753916AD

March 2022

Advanced Diagnostics is pleased to announce the release of an update to the ADS2287 software to include the 2018 Dacia\* Duster proximity system. The application list has been expanded to include many other models added since the original software release.

### What does the software do?

The ADS2287 software programs keys for various Fiat\*, Opel\*-Vauxhall\*, Nissan\*, Renault\*, Dacia\* and Smart\* vehicles worldwide securely even in an all keys lost situation. The software bypasses the security pincode during the procedure and programs the remote and the transponder at the same time. The software programs the vehicle key in only 3 or 4 minutes.

All the keys and remotes have to be erased before programming new ones. The Smart Aerial is required for precoding procedures.

### What else will I need?

RN-N01R11

VA2P26

VA150S13

Smart Pro

Smart Aerial

### OFFER DETAILS

Cable	ADC2000
Software category	A
Other accessories required	Yes - Smart Aerial for precoding
Other software required	No
