

## Fiat® 2015 Key Programming Software ADS247 (SOUTH AMERICA) - Code D746561AD

Smart Dongle and Smart Aerial compatible

December 2015

Advanced Diagnostics are pleased to announce the release of Fiat® 2015 (ADS247) software for Fiat® vehicles found in South America.

### What does the software do?

ADS247 key programming software now includes pin code reading and pre-coding for Fiat® vehicles specific to the South and Central American market. For an improved, time saving and streamlined procedure, pre-coding can be performed seamlessly in the background using Smart Aerial and Smart Dongle, enabling the locksmith to pre-code a blank transponder and without having to switch to another device or tool.

Customers that have not purchased Smart Aerial have the option of using the Silca RW4 Plus/Fast Copy Plus cloning devices (minimum software version required: 03.20.080) and the Power Cable (ADC243) for pre-coding.

### What software and products will I need to program / pre-code keys for Fiat® group vehicles?

MVP PRO/AD100 Pro

ADS185 SOFTWARE

SMART DONGLE

SMART AERIAL

**Note: without Smart Dongle, only pincode reading is available.  
For MVP Pro users: one token will be deducted.**

Contact your distributor to buy Smart Aerial and ADS247 software now.

#### DETAILS OFFER

Cable	ADC250 or ADC251
Dongle	Smart Dongle and Smart Aerial or Smart Dongle +RW4 Plus/Fast Copy Plus+cable Power Cable (ADC243)
Software category	A
Other software required	ADS185
Smart card	Smart Dongle
