New Key Programming Software
for Jeep® - Chrysler® - Fiat® Vehicles
ADS234 - Code D747638AD

November 2016

Advanced Diagnostics is pleased to announce the new release of Jeep®, Chrysler®, Fiat® 2016 ADS234 key programming and pincode reading software.

What does the software do?

ADS234 software programs keys for vehicles with proximity systems. This software allows keys to be added or programmed from a lost key situation and has been designed to read the vehicle's pincode and then easily program keys. The remote fob programming is performed automatically as part of the procedure when using ADS234.

MVP Pro users will receive this software free of charge and one token will be deducted for pincode reading. One additional token will be deducted for programming keys.
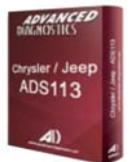

What other software and products will I need?

MVP PRO / AD100 PRO

SMART DONGLE

ADS113 SOFTWARE
