

## New Key Programming Software for Fiat® 2016 Vehicles ADS258 - Code D748071AD

November 2016

Advanced Diagnostics are pleased to announce the release of Fiat® 2016 (ADS258) software for various makes and models.

### What does the software do?

ADS258 key programming software now includes pincode reading and precoding for the Fiat® 500 and various other models. For an improved, time saving and streamlined procedure, precoding can be performed seamlessly in the background using the Smart Aerial and Smart Dongle, enabling the locksmith to precode a blank transponder without having to switch to another device or tool.

Customers that have not purchased the Smart Aerial have the option of using Silca RW4 Plus/Fast Copy Plus and the ADC243 cable for precoding.

### What software and products will I need to program / precode keys for Fiat® Group vehicles?

MVP PRO / AD100 PRO

ADS185 SOFTWARE

SMART DONGLE + SMART AERIAL

RW4 PLUS/FAST COPY PLUS +  
ADC243 CABLE

Contact your distributor to buy ADS258 software now.

**MVP Pro users: one token will be deducted for precoding and one for key programming.**
